Education

2011
2016

Ph.D. Materials Engineering, Indian Institute of Science, Bangalore.

2008
2010

M.Sc. Chemistry, Loyola College, Madras University, Chennai.

Passed with distinction

2005
2008

B.Sc. Chemistry, St. Joseph's College, Calicut University, Kozhikode.

Passed with distinction

PhD thesis

- Title *Mapping the transient morphologies and the demixing behavior in PS/PVME blends in presence of multiwall carbon nanotubes*
- Supervisor Dr. Suryasarathi Bose
- Description My PhD thesis is focused on obtaining a fundamental understanding of the interplay between structure and dynamics in the polymer blend polystyrene/ poly(vinyl methyl ether)PS/PVME and the effect of multiwall carbon nanotubes (MWNTs) in the same. The evolution of multiphase polymer micro structures by thermally induced phase separation (TIPS) in this LCST polymer blend and its structure-property correlations at various time scales/ temperature regimes was carried out using the characterization techniques such as Rheology, Differential Scanning Calorimetry, Dielectric Spectroscopy and Atomic Force Microscopy. Similar studies were extended on the effect of chain-end grafted nanoparticles (with various length of polymer brushes) in the demixing of the blend and particle localization. The different structures designed by TIPS have been further used to fabricate membranes for water purification. Electrically conducting blends of the same polymer have also been used to prepare electromagnetic shielding materials/coatings.

Master thesis

- Title *Synthesis, characterization and dielectric studies of unsymmetrical stilbenes*
- Supervisor Dr Jeya Rajendran
- Description Three new unsymmetrical stilbene derivatives, with high dielectric constant have been synthesized by the condensation of p-nitro phenylacetic acid and different substituted benzaldehyde via Knoevenagel condensation. The synthesized compounds 4-hydroxy-4'-nitrostilbene, 4-propoxy-4' nitrostilbene, 4-butoxy-4' nitrostilbene were characterized by various spectroscopies and thermal analysis. Dielectric analysis of these samples showed a varying dielectric constant with respect to the electron donor groups present.

Additional projects

- Currently involved in a project for developing electromagnetic compatible composite of polyvinylidene difluoride with manganese ferrite
- Currently involved in a project for developing of thermoset-thermoplastic blend for rigid and reversible adhesive

Achievements

- Best Poster Award, 5th Molecular Materials Meeting, Singapore, August 3, 2015
- Best Poster Award, Advancements in Polymeric Materials -APM 2015, Indian Institute of Science, Bangalore, India, February 19, 2015
- DST travel grant, August 2014 for attending 248th ACS National Meeting
- UGC-Basic Science Research fellowship for the year 2013-14
- Travel award, International Workshop on Advanced Materials Ras Al Khaima Centre for Advanced Materials, UAE, 2013
- Qualified Lectureship [UGC-National Eligibility Test] (all India rank 29) in Chemical Sciences June 2011
- Best paper (third) Chemistry: Current Focus, Madras Christian College, Chennai, March 24th 2010.

Teaching Experience

2013
2014

Teaching Assistant, Indian Institute of Science.

- Undergraduate and Postgraduate Polymer Processing Laboratory Techniques

Skills

Training & Experience

- Controlled radical polymerization techniques such as ATRP, RAFT
- Rheometer
- Haake Minilab micro compounder, Injection moulding, Compression moulding
- Vector Network Analyzer, Impedance analyzer, LCR meter
- Polarizing Optical Microscopy
- Cryo-ultramicrotomy
- SEM, TEM
- DSC, TGA, DMA
- FTIR spectroscopy, UV-Visible spectroscopy

Computer Skills

Tools ImageJ, Origin, Shape Software, **Programming** C/C++, Matlab, \LaTeX , Linux ChemSketch

Relevant Courses

2011

Concepts in Polymer Blends and Nanocomposites, Polymer Science and Engineering, Polymer Science and Engineering-Organic Photovoltaics, Thermodynamics and Kinetics, Electron Microscopy in Material Characterization, Analytical Instrumentation, As part of PhD coursework.

2014

Beauty, Form and Function An Exploration of Symmetry, Verified certificate from Coursera offered by NTU Singapore.

2015

Relaxation in Materials, Summer course from Indian Institute of Science.
